

Hygiene concept Trainings

According to the current 4th Bavarian Infection Protection Measures of May 5th, 2020, training events are possible, taking hygiene measures into account. The following hygiene measures apply until further notice. This hygiene concept relates to the training rooms and related facilities (corridors, lounges and sanitary areas) of IBA Dosimetry GmbH in Schwarzenbruck.

1

Minimum distance between people of 1.5 m.
The minimum distance needs to be maintained **at all times**.

2

Wearing a mask is mandatory in common areas
(Exceptions: At your work station in the training room)

3

Hand disinfectants are available at the entrances and sanitary rooms.
Disinfection for surfaces are available in the training rooms. Please use at the start and end of the meeting.

4

Wash your hands frequently.

5

The training rooms need to be aired regularly.

6

We ask for written confirmation of each external participant that they are not showing any symptoms or that symptoms have existed in the past 14 days. In addition, the personal contact details (address, telephone) of each participant need to be documented.
